

How are we different?

- 1: We include the family in the entire process, even before the man arrives
- 2: We utilize men from the community as “Coaches” to help each man negotiate the pitfalls that await.
- 3: We get the men to work right away so that they can feel productive
- 4: Each man will have a custom “Re-Integration Plan” designed specifically for them
- 5: Immediately integrated into the existing System of Care within the community
- 6: Specific Job retention classes offered

When you are ready...

No one understands what you are going through, like someone who has been there. When you are ready to start your new life, we are here to help you, support you, and sometimes, kick your BUTT.

We have been there.

We understand.

It gets better

It's all about the kids!

Our Belief: There is no one that will have as profound an effect on the children as the parents. If we want successful children, we must train; we must create successful parents.

People DO Change!

Families are restored!

a Safe Place

*Where Transformations
take place,*

*Men and Women come
to believe in themselves*

*and Families are
restored!.*

What are we?

We are a **system** for helping men and women successfully re-integrate from a previous life back into the community and their family. We operate a Transitional Living Center as a Not for Profit entity in order to help us accomplish this goal.

Our Vision:

Our vision is to create a self-perpetuating society, which fosters successful reintegration of fathers and mothers into their respective families upon exit from jail, prison, or treatment facility.

Our Mission:

Our Mission is to help as many men and women as we can to return to their families and communities and take a *productive* role within them.

Families helping Families:

We have created a multi-faceted program which is *specifically* designed to help the families of the incarcerated. Our primary focus is a "faith" based system of families helping families.

Family Services:

are focused on "faith" based and peer counseling, support group implementation and facilitation., There will also be specific Life Skill courses offered based upon the Wings Ministry by Ann Edenfield

Offenders now become Returning Citizens

One of the main goals of this program is to help you attain and *maintain* gainful employment. We have several different options for the men in the program so that they should be working within the first two weeks of entry. If you are part of this program, you WILL work. There are no exceptions.

We have created several service oriented businesses that will help the men to get on their feet initially. We want every man to "Hit the ground running!"

Frequently asked Questions:

Do you have a counselor on staff?
Yes. We are also partnered with Junctions to provide a full spectrum of services.

What is the length of the program? 4 Months + Aftercare

Who gets in? Men who have demonstrated a desire to change! Recommendations from a counselor or chaplain are required.

We desire to help people who have demonstrated a desire to change. They may demonstrate this by in-prison program participation and/or church attendance, or by *consistent* attendance at AA, Drug Court, Celebrate Recovery or other recovery programs

We want to help those men take advantage of the programs they have gone through and give them a launching pad to a new life!

How much does it cost? Every man is required to put 30% of his check in savings and donate 25% to the house. He gets to keep the remainder. Our goal is to have at least \$1,000 in savings by the end of the 4 months
